

Reliable Performance

CL3300 Series Cylindrical Lock

The CL3300 Series is your “go-to” ANSI/BHMA Grade 1 cylindrical lockset manufactured with high quality materials ensuring strength, durability and quiet operation. Available in all standard architectural finishes and four lever designs, the CL3300 Series subtly complements any high-use institutional, industrial, and commercial application.

CL3300 Series

Cylindrical Lock

APPLICATIONS

- Schools & Universities
- Hospitals
- Corporate campuses
- Government/Municipal Buildings
- Commercial Buildings

FEATURES

- ANSI/BHMA Grade 1 certified
- UL-cUL listed for 3 hour fire doors and windstorm applications
- Lever Release™ lever design for vandal resistance
- 26 functions available, including classroom security and electromechanical
- Independent return springs to prevent lever sag
- Thru-bolted cylindrical chassis prevents rotation and ensures proper alignment
- Available in 12 architectural finishes and Microshield® antimicrobial coating
- 7-year warranty

BENEFITS

- **Safety and Security:** ANSI/BHMA Grade 1 lock manufactured with high quality materials; specialized functions allow for quick and secure lockdowns
- **Flexibility:** 26 functions (2 electromechanical); 'go-to' cylindrical lock for almost any opening
- **Ease of Installation and Retrofit:** EZ-Install components significantly reduce installation time and utilizes the ANSI/BHMA A156.115 door prep
- **Compatibility:** Integrates into most existing facility's key systems, including Corbin Russwin security systems (Access 3® and Pyramid); also accepts Schlage LFIC and all SFIC.

An Environmental Product Declaration (EPD) documents the cradle-to-grave life cycle of a product and how it affects the environment. An important aspect of EPD® is to provide the basis of a fair comparison of products and services by its environmental performance. EPDs can reflect the continuous environmental improvement of products and services over time and are able to communicate and add up relevant environmental information along a product's supply chain.

MicroShield®

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield® technology, registered with the EPA and FDA. Microshield® is a silver-based antimicrobial coating designed to inhibit the growth of bacteria.

MicroShield® is a registered trademark of Yale Security Inc., an ASSA ABLOY Group company.
