

Why your customer needs an HPC Key-in-Knob Remover

1007

When faced with a knobset that cannot be picked a security professional needs options other than drilling or destroying the lock.

How to sell an HPC Key-in-Knob Remover

Key Selling Points:

- * **DEPENDABLE!** *removes Knobs without destroying the cylinder or lock and its heavy-duty construction ensures years of use.*
- * **VERSATILE!** *Special contour design fits Plymouth, Ball and Tulip style knobs.*
- * **ESSENTIAL!** *Works similarly to the "Best Seller" Lever Handle Remover.*
- * **PROFESSIONAL!** *This is another one of HPC's many "Security Professionals Only" tools that do-it-yourselfers and handymen don't have. Tools like these will solidify the professional relationship between locksmiths and their customers.*

Key-in-Knob Remover

Security Professionals need multiple tools in their arsenal to get the job done. In the past, the only option for opening a locked knobset was picking or drilling. HPC's Key-in-Knob Remover offers a different solution. If the knobset can't be picked it no longer has to be drilled destroying the cylinder. The HPC Key-in-Knob Remover is a sturdy tool that *pulls the knob off most knobsets without damaging the cylinder or lock.*
