

155070100

155160100

These successful recycling centers have been modified and are now available with an optional **SOFT STOP** device. The look and specifications of the products remain the same. The slow motion device is sold separately. Optional front fixing brackets #55520100 still available. Can be installed with or without the **SOFT STOP** mechanism.

Old version

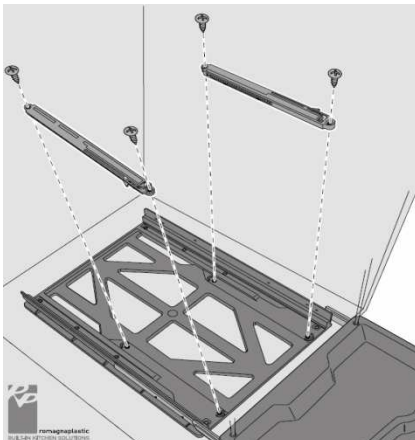

New version.

The slow motion mechanism is simply installed on the side of the frame by using 4 screws.

New soft stop mechanism

15510100
