

**1 to 5
application
(2x35l)**

**1 to 4
application
(2x25l)**

Applications

- The 2 new bins can be used with our 1to5 system (only 600mm version for 1to5) or with the 1to4 system.
- In the 1to5 application, it's always 2 bins you can use. A compensation filler has to be used as well.
- In the 1to4 application, interesting solution for Legrabox drawers.

Product features

- Completes the range of 1to4 and 1to5 systems, and offers more big capacity solutions.
- It's the same individual lid that can be used with both bins.
- Lower height (330mm for the 25l version, 470mm for the 35l version), makes it interesting regarding space optimisation in a 1to4 application.
- Practical handles to remove the bins for cleaning.

No.	Description
5061100	35l bin - grey
5062100	25l bin - grey
5010100	Lid for 25 or 35l bin - grey
5891100	Filler for 16mm cabinet application
5892100	Filler for 19mm cabinet application

For a **1to4 application**, all you need to do is order one mat #5181100 and do your configuration of bins depending on internal drawer dimensions available.

Bin dimensions:

Code	Width	Depth	Height
5061100 25l	230mm 9"	412mm 16 1/4"	330mm 13"
Code	Width	Depth	Height
5062100 35l	230mm 9"	412mm 16 1/4"	470mm 18 1/2"

For a **1to5 application**, the new bins can be used only for the 600mm applications and the configuration is always 2 bins.

For a complete unit	Qty	Side gable thickness	
		16 mm (5/8")	19mm (3/4")
Frame + overall lid	1	5216100	5219100
Filler	1	5891100	5892100
Bins	2	25l and/ or 35l	
Lid	0-1 or 2	5010 100	

Use 500mm Tandembox or Intivo
