

Compost bin and lid 4,2 liters Essensa

Silver Gray

Dark Gray

Practical compost bin to hook on the undersink cabinet door

Application

- Kitchen undersink cabinet for compost purposes
- Can be used as a dry food storage bin as well

Description

VERSATILE & PRACTICAL WASTEBIN

This is the little everyday helper supporting you with your waste disposal. The bin is equipped with a hook on its back meaning it can be hung on the top of a cabinet door of a thickness from 16mm to 22mm (5/8" to 7/8").

Organic waste such as vegetable peelings can be tidied into the bin while you prepare you meal. So you no longer have to open a cupboard door or bin lid to dispose of peelings, while you have dirty and busy hands.

The lid supplied in the set ensures a tight and odour free sealing of the bin before disposing of the waste. Can also be used simply standing stable even on delicate worktops.

A very practical helper to save space and time

Advantages

- Available in silver gray and dark gray
- Equipped with a hook on its back which allows to hang the bin on the inside or outside of an undersink cabinet door
- Ideal solution for the organic wastes when preparing the meals
- The lid supplied in the set ensures a tight and odour free sealing of the bin
- Space optimising solution.
- Easy to clean
- German design and 10 year guarantee
