

Included is a new and improved view of pricing for the LCN portfolio.

Pricing using an additive, component level approach enables Allegion to provide you a data file that your systems can consume. This book is a visualization of that data.

Visit the Price Books app on the Allegion 360Portal to download the data file for LCN.

The simplified structure of pricing and product data in this book creates an easier configuration experience and a quicker update process for future price increases. Pricing logic used in this new format makes the product and price easier to understand and has enabled Allegion to provide customers with a **digital data set of pricing, available for download at <http://360portal.allegion.com>**.

As a result, the How to Order formats have been updated to match the Allegion Catalog Nomenclature (ACN) logic and are provided throughout the book at the series level. ACNs are descriptive, unique identifiers that set standards on how to order products and require default, consistent naming conventions for all product attributes across Allegion brands.

For more information about ACNs, please visit us.allegion.com/acnsupport or email ACNHelp@allegion.com.

Online ordering is available through Estimate to Order (ETO)

ETO offers much more than placing online orders including:

- Net price and list price are both displayed based on your buying program.
- Configure products, build hardware sets and place an order, or you can export to Excel.
- Build a dynamic cross-reference between your part numbers and Allegion part numbers. Any time a description, price or other product data is changed, your cross-reference will automatically be updated.
- Request a quote or quote revision directly from an estimate

Visit <http://360portal.allegion.com> to get started or email online.ordering.access@allegion.com to sign up.

To learn more about how ETO works and its features, visit: us.allegion.com/ETODirect.

Traditional ordering methods:

Email: allegion_orders@allegion.com
Fax: 1-800-248-1460

When using traditional ordering methods, list the product attributes in the order outlined in this price book, which follow the ACN format guidelines.

Pricing below is for frequently ordered products. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply.

Shown below is component level pricing for the series. Configured product pricing can be determined by adding the dollar amounts for each component. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply. The result is a fully configured ACN. Before configuring any products, consult the configuration book for configuration rules.

Shown below is component level pricing for the series. Configured product pricing can be determined by adding the dollar amounts for each component. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply. The result is a fully configured ACN. Before configuring any products, consult the configuration book for configuration rules.

Shown below is component level pricing for the series. Configured product pricing can be determined by adding the dollar amounts for each component. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply. The result is a fully configured ACN. Before configuring any products, consult the configuration book for configuration rules.

Shown below is component level pricing for the series. Configured product pricing can be determined by adding the dollar amounts for each component. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply. The result is a fully configured ACN. Before configuring any products, consult the configuration book for configuration rules.

Shown below is component level pricing for the series. Configured product pricing can be determined by adding the dollar amounts for each component. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply. The result is a fully configured ACN. Before configuring any products, consult the configuration book for configuration rules.

Shown below is component level pricing for the series. Configured product pricing can be determined by adding the dollar amounts for each component. When placing an order, list the components or attributes in the order shown below. Separate each value with a period (.). Leave blank any components or attributes that do not apply. The result is a fully configured ACN. Before configuring any products, consult the configuration book for configuration rules.

Control box components

293G	Exhaust muffler for 7901, 7902, 7981, or 7982 Series Control Boxes	\$30
319	"T" fitting to connect 925 pneumatic tubing	\$3
320	"Inline" fitting to connect 925 pneumatic tubing	\$3
329	Replacement inlet air filter for the 7981 or 7982 Series Control Boxes	\$70
329G	Replacement inlet air filter for the 7901 or 7902 Series Control Boxes; Includes -929 Air Filter Assembly	\$230
900	Main power supply/input board for the 7901, 7902, 7981, and 7982 Series Control Boxes; Ten (10) terminals	\$530
903	0-30 second timer module for 7901, 7902, 7981, and 7982 Series Control Box; Plugs into the -900 Power Supply Board	\$235
925	Flexible pneumatic tubing with an 1/8" inner diameter and 1/4" outer diameter; specify number of linear feet required when ordering	\$2/ft
929	Internal filter and seal component to the 329G Air Filter Assembly	\$30
941	Regulator valve assembly for the 7901 series control box	\$800
941C	Regulator valve assembly for the 7949 series control box	\$800
942	Regulator valve assembly for the 7902 series control box	\$1,550
964	Rubber isolator for 7981 or 7982 compressor (-3960) assembly	\$25
3299A	Air valve assembly for the 7981 Series Control Box or the 'A' circuit valve assembly in the 7982 Series Control Box	\$450
