

LCN®

Actuators and sensors

Overview

LCN actuators and sensors are designed to be used with LCN automatic operators. The desired function, traffic patterns and physical design of the opening will determine the type of actuator used.

Safety and activation sensors are designed to both protect pedestrians, and help prolong the life of an automatic operator. LCN safety sensors can be used on all automatic operators.

LCN also offers a full line of activation device accessories, including: surface and flush mounted boxes, weather rings, escutcheons, wireless transmitters and receivers (1 channel), key chain activation devices (up to 4 buttons), sequencers, and a bollard post (used with 4 3/4" square actuator.)

Features and benefits

- Complies with ANSI 156.19
- Can be ordered individually or in kits that combine common products for a specific application
- Beveled edges provide a tamper and vandal resistant solution to push plate needs, allowing no room for objects to get between plate and mounting box
- An all-active plate activates with any "push" location
- Stainless steel finish will not deteriorate or rust where it is touched — scratch and scuff resistant
- All activation push plates are available with ADA logo art and text or with ADA logo art only
- Text and ADA Compliant logo art are baked onto the surface for added durability

Stainless steel push plates

Round push plates

6" Round style push plate

4 1/2" Round style push plate

Square push plates

4 3/4" Square style push plate

Jamb push plates

Jamb style push plate

Dual jamb style push plate

Ready mount actuators

6" Slim profile push plate

4 3/4" Square style push plate

36" x 6" Full length actuator
